Admiral has opened a new co-branded repair centre in partnership with Steer Automotive Group in Glasgow, expanding dedicated repair capacity across Scotland's Central Belt - one of the UK's busiest regions for vehicle repairs, providing Admiral with greater insight into repair trends and operational performance.

The centre combines Admiral's customer first approach with Steer's industry leading repair expertise and reflects a shared commitment to sustainability and long-term workforce development by offering apprenticeships, advanced electric vehicle repair training and sustainable repair techniques.

Together, we're investing in people, skills, and technology to help keep the automotive industry moving forward, while ensuring every repair meets the highest standards for our customers.
